

Greetings all:

It is with sadness that I must make this announcement.

After discussion with the Board, and the most recent direction from UUA ([attached](#)¹), it is prudent to cancel our meetings at the fellowship hall at least through March. That will change depending on conditions.

In the meantime, I am working to come up with a way to continue services on line. I'm not sure what this will look like, but I bet it will be useful for those who can participate.

I also ask that those who have connections with outside groups that use our building, to please ask them to stop using our facility for the time being.

This is an inconvenience that will pass, but if we all do our part to break the infection chain, it will pass quickly.

Regards and good health to all,

Bill Bradshaw

UUFS President
